

LACQUER REFRESHER

Restores finished floors

Kährs Lacquer Refresher is an easy-to-use refresher for finished parquet and wooden floors. The product gives the wood a protective top surface which simplifies the cleaning and maintenance process. Kährs Lacquer Refresher –should be used for satin lacquered floors

Application

First you have to make sure that the surface is free from any dirt or debris that may scratch the surface, by vacuum cleaning or dry mopping. Dissolve the Kährs Cleaner in lukewarm water according to dosage information, alternatively Kährs Spray Cleaner. Then wipe off the surface with a well wrung-out mop or cloth. For very dirty floors or if the surface has been treated with polish or other treatments, first clean the floor with Kährs Remover, see separate instruction.

1. Apply the Kährs Lacquer Refresher with a damp mop or cloth.
2. Let the Refresher dry for minimum 30 minutes before replacing furniture. Heavier items as well as rugs need curing at least for 24 hours. Good ventilation and normal room temperature (20°C) minimize the drying time.
3. Allow floor to dry for a few hours without wear.

ARTICLE NUMBER:
710522, Kährs Lacquer Refresher

TECHNICAL DATA

Bonding agent:	Polymer resin
Contains:	Ammonia ...%
Coverage:	Approx. 60 m ² /l
Application	
Temperature:	13-25 °C
Drying time:	minimum 30 minutes
Shelf life:	24 months in unopened container Temperature between 5-25°C
Frost tolerance:	Store free of frost
Clean-up:	Use water to clean tools before the refresher hardens
Toxicity:	Non-hazardous
Flammability:	Non-flammable
Packaging:	1 liter plastic bottle

Care and Maintenance

Use Refresher depending on traffic and wear one to two times per year. Regular care involves vacuuming or slightly damp mopping. Maintain periodically by using Kährs Cleaner or Spray Cleaner. Do not use strong alkaline cleaning products.

Health and Environment

Kährs Refresher is not classified as hazardous to your health or the environment. Usual precautions for handling chemical products should be observed. Ensure adequate ventilation. Use protective goggles and gloves. In case of skin contact, wash thoroughly with soap and water. For eyes, flush with plenty of water. For further information, please see Material Safety Data Sheet.
