

ADHESIVE

For installation of Kährs wood floors with T&G joint.

Product Description

Kährs Adhesive is a coldwater resistant wood adhesive based on modified PVAc dispersion. The product has high adhesion to all wood species. The adhesive fulfils the requirement for group D3 according to DIN EN 204/205.

- Shake the bottle before use.
- Follow the laying installation of the actual T&G floor.
- EUH208: Containing 1,2-Benzisothiazol-3 (2H)-one. May cause an allergic reaction.

For further information, see the Material Safety Data Sheet.

ARTICLE NUMBER: 710225

Technical Data

Adhesive Type:	1-component
Binder:	PVAc
Colour:	White, (transparent after hardening)
Viscosity:	10.000 +/- 2.000 mPa·s
pH:	~ 3,0
Dry content:	~ 46%
Density:	~ 1.080 kg/m ³
Working Temperature:	15-20° C
Cleaning Solvent:	Water before hardening
Open time:	5 minutes
Shelf life:	Minimum 24 months in unopened container stored at 10°C-20°C
Toxicity:	Non-hazardous
Flammability:	Non-flammable
Frost Tolerance:	Protect against frost. Do not store below 0°C
Packaging:	0,5 liter plastic bottle
