

Parquet Polish

Kährs Parquet Polish is an effective, environment friendly product that revives finished wood and parquet floors. Self-polishing, waterproof and protecting against mechanical wear, Kährs Parquet Polish both cleans and protects your floor.

Application

1. Carefully remove polish, wax, dirt, oil etc. from floors prior to refinishing. Use Kährs Remover.
2. Wait for the floor to dry. Good ventilation and normal room temperature (20°C) minimize the drying time.
3. Use approx. 10 caps polish in clean water and clean the floor using a cloth wetted with water and squeezed dry. Never use the polish concentrated.
4. Allow the floor to dry for 1-2 hours before using it.
5. Repeat if needed.

Care and Maintenance

Clean and maintenance with polish two or three times per year.
Do not use strong alkaline cleaning products.

Health and Environment

Kährs Parquet Polish is not classified as hazardous to your health or the environment.

Usual precautions for handling chemical products should be observed. Ensure adequate ventilation. Use protective goggles and gloves. In case of skin contact, wash thoroughly with soap and water. For eyes, flush plenty of water. For further information, please see the Material Safety Data Sheet.

ARTICLE NUMBER: 710520

TECHNICAL DATA

Bonding agent: Acrylate dispersion
Contains: Tetraamminezinc(2+) carbonate
Viscosity: 12 s (FC 4, 20°C)
Solids by weight: 15%
Approx. weight: 1,0 kg/l
Coverage: Approx. 80m²/l
Application temperature: 14-28°C
Drying time 30-60 minutes
pH: Approx. 7-8
Shelf life: 24 months in unopened container. Do not expose to temperatures exceeding 40°C
Frost tolerance: Store free of frost
Clean-up: Use water to clean tools before the polish has hardened.
Toxicity: Non-hazardous
Flammability: Non-flammable
Packaging: 1 liter plastic bottle
