

Woodfiller

Woodfiller is a putty for reparations of scratches and damages in wood or laminate flooring.

- Easy to use
- Solvent free
- Results in a hard and resistant repair which joins the wood in a natural way. The putty remains elastic enough to follow the material in its changes according to humidity and temperature. This results in a long lasting and beautiful reparation.
- Including plastic spatula and polishing pad

For further information, see the Material Safety Data Sheet.

Shelf life: Several years in an unopened original packaging

Frost resistance: To be kept away from frost. If frozen product might still be able to use after defrosting and some stirring

Tools: Use the included plastic spatula and polishing pad

Packaging: Aluminium tube containing 100 gram

Kährs®

Instructions

The surface to be repaired with Kährs Woodfiller should be well grinded, dry and free from waxes, grease, and other impurities. Remove excess putty immediately. We recommend to finish the repair by sealing the repaired area with the use of Touch Up Lacquer or Touch Up Oil.
